Product Description

Manual Electromagnetic Induction Sealing Machine Cups Can Plastic Mini Sealing Machines

New product feature:

- The white case is made of new material and is durable. The independent handle head is thick and does not get tired for a long time.
- The copper coil is tightly wound, with higher density, faster heating and higher temperature resistance, and it is not easy to burn the coil.
- By default, the newly developed 100-500W motherboard is used to adjust the power, which is lower, safer, and more power-saving.
